Focus on Science, Technology, Engineering and Maths (STEM)

22 October – 2 November
Focus on Science, Technology, Engineering and Maths (STEM)

Think about key skills needed in today’s workplace: problem solving, analytical thinking, and the ability to work independently. What do they all have in common? They are all related to STEM subjects. Not only is there a vast amount of opportunities available for you, but starting salaries can also be extremely lucrative.

<tbody>
<tr>
<td>22/10/2018</td>
<td>Roles in Research and R&amp;D – R&amp;D is an essential component of innovation and evolution within a business, and there are opportunities within academic, industrial and government environments. Join our panel of Research and R&amp;D professionals, and learn how to make a career of your academic skills and passions.</td>
</tr>
<tr>
<td>23/10/2018</td>
<td>QMUL Alumni working in Technology – This event will showcase the range of choices open to students interested in Technology careers. Come and meet QMUL alumni and employers in the tech industry – ask questions, learn from their experience and explore the options available to you!</td>
</tr>
<tr>
<td>24/10/2018</td>
<td>Introduction to Coding with Sparta Global – Using a combination of agile methodology and fast product development, we will teach you how to use code in a dynamic, commercially relevant way to build a fully functioning application by the end of the session. Whether you are already passionate about coding or you are looking to learn from scratch, we can teach you how to turn our business ideas into products using code and to explore the power of programming.</td>
</tr>
<tr>
<td>24/10/2018</td>
<td>Careers in Space – Space is booming – especially in the UK! While astronauts are the first professionals that come to the mind when most people think about careers in space, there are numerous other employment opportunities in this field – Propulsion Engineers, Astronomers, Robot Technicians, AI Development to name a few. Find out what opportunities are available and how you can gain entry to this huge sector.</td>
</tr>
<tr>
<td>25/10/2018</td>
<td>FinTech forum – The UK’s flourishing fintech market is worth a staggering £6.6bn and employs more than 61,000 people… Interested? You should be! Hear from our panel of experts about what it is like to work in FinTech, and what roles may be best for you.</td>
</tr>
<tr>
<td>29/10/2018</td>
<td>Science and Technology Careers fair, kindly sponsored by Reply – Whether you have decided your career path or are considering your options, come and find out about the roles available in this growing sector. This Fair will be exhibiting internships, graduate schemes and live vacancies from over 20 employers in Science and Technology.</td>
</tr>
<tr>
<td>30/10/2018</td>
<td>Celebrating Women in STEM – Women advocating for women is so essential in all disciplines, but especially those that remain male-dominated. In this networking event we celebrate women who are in STEM careers, and listen to their advice on how to be successful.</td>
</tr>
<tr>
<td>31/10/2018</td>
<td>Interviews workshop with AWE – How to answer technical questions – This session will look at the style and structure of interviews for technical roles, explore how AWE (and other employers) expect you to evidence your skills, how to cope with unexpected technical questions and to showcase your experience to the best of your ability. You will also hear about the range of roles available across AWE and have the opportunity to practice asking and answering interview questions.</td>
</tr>
<tr>
<td>31/10/2018</td>
<td>Technology for Good: the ethical start-up – How is technology being used to improve society? What are the current trends? How can you get involved? Join us for a panel discussion and interactive workshop exploring the world of Tech for Good.</td>
</tr>
<tr>
<td>01/11/2018</td>
<td>Careers in Data Science – It is no surprise today that Data Scientists (or related roles such as Data Manager, Statistician, Data Analyst, etc.) are one of the most popular career paths for graduates. During this event you will hear from data specialists in a variety of sectors, and discover the vital roles they play in a successful business.</td>
